

Tracks after Medical School

Nelson Galvis-Garrido
Universidad de Antioquia, Colombia

Undergraduate track

6 years + 6 months of Medical Education

Degree to have after the undergraduate program: **General Physician**

Parts of the Undergraduate Program

2 Years

Basic

System centered courses where you have an overview of anatomy, histology, physiology, pathology and general examination.

Additional formation courses like bioinformatics, public health and english as second language.

3 Years

Clinical

Practice based in stages of life in humans.

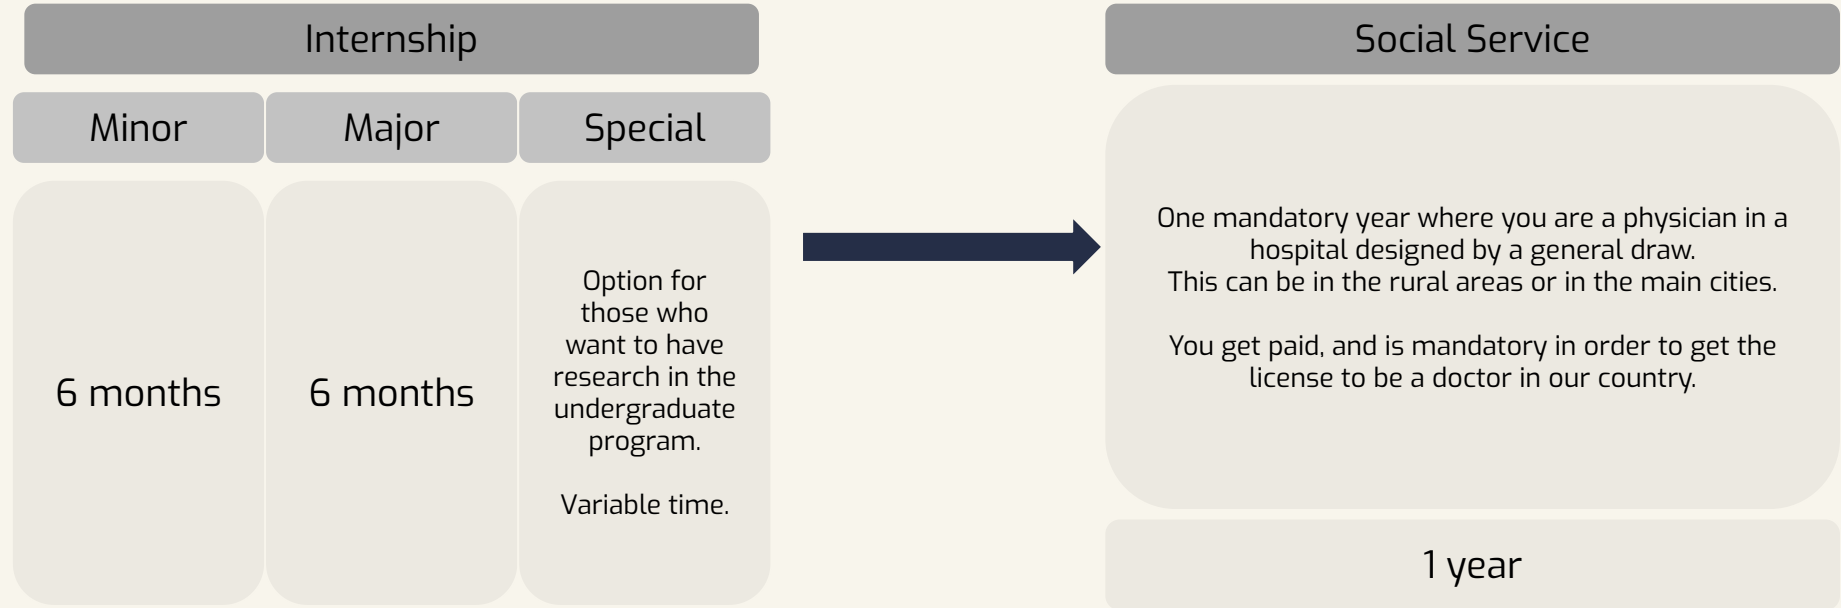

For example:

Kids: Pediatrics, Adolescence

Adults: Internal Medicine, Mental Health, Emergency Medicine, Gynecology and Surgery.

Elders: Cancer, Palliative Care and Pain Management.

Parts of the Undergraduate Program

After “MD”

Residency

Apply to each university
(not hospital) in order to
get accepted.

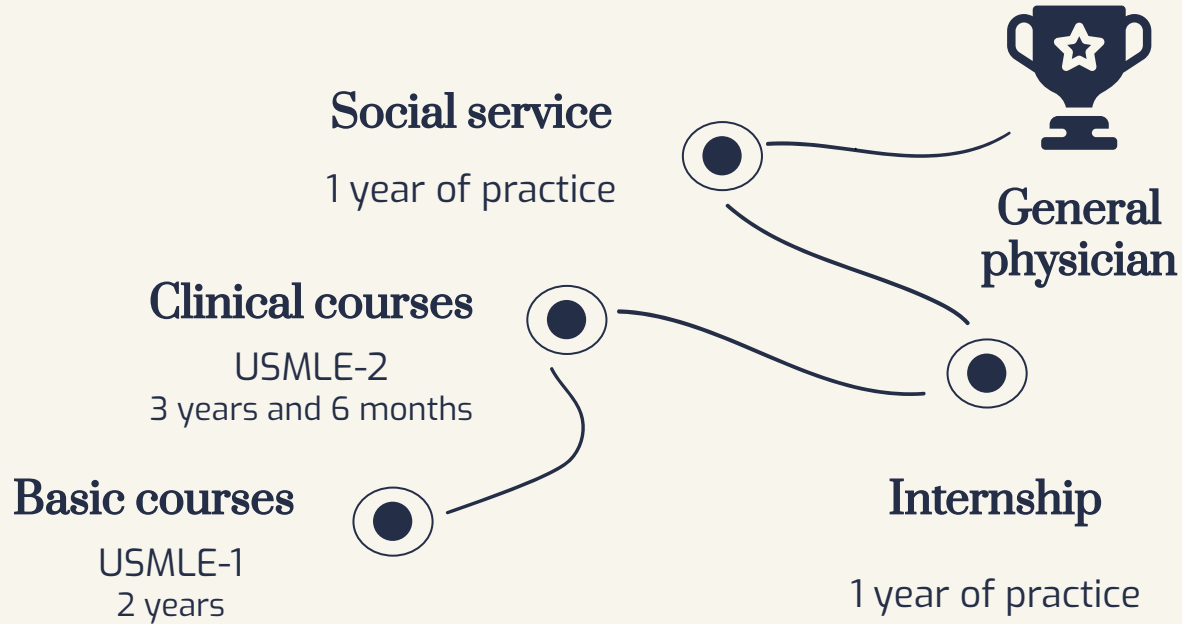

Each university has their
own admission protocol.
Most common is Test + Interview

Others

Different paths of
formation.

Important Points

Total: 7 and 6 months of preparation.

Thanks
